Highlights:

- Salary churn detection
- Voice kiosk usage growth
- Admissions journey redesign
- Research-validated CX gains

Professional Summary:

Customer Insight and CX Strategist with experience in banking, retail and education, translating research and analytics into shipped improvements. Delivered measurable impact including offer conversion +26% in 8 weeks, churn reduction 12-16% over 3 months, and CSAT uplift +6.4pp via scoring rules, trigger logic and experience redesign.

Professional Experiences:

Customer Experience Expert at International Bank of Azerbaijan

03/2025 - Present

- Build behavior-based campaign engine with scoring, triggers and fatigue caps, lift offer conversion by 26% in 8 wks.
- Fuse transactions, in-app analytics and CX signals into dashboards, cut insight cycle time by 45% via verbatim clustering.
- Define salary churn by outflow ratio & time-to-outflow, cut churn by 12-16% & lift wallet share by 7-11% over 3 months.
- Reduce irrelevant-offer complaints by 18% and raise campaign-linked CSAT 6.4pp by refining trigger eligibility rules.

Marketing Specialist at PASHA Malls

07/2024 - 03/2025

- Removed voice-kiosk entry friction with new cues and privacy messaging, lifting daily queries from 2-3 to 300-400+.
- Led mall site redesign with bilingual IA and store filters, lifting NPS +12 to +31 and cutting find time 47s to 18s.
- Ran tenant co-marketing and events, raising engagement 15% and reach 18%, improved ROI 10% while 8% cutting costs.

Communications-External Relations/Publishing Coordinator at International School of Azerbaijan

10/2019 - 06/2024

- Redesigned admissions journey and IA, cutting repetitive inquiries 70% and lifting application completion to 95%.
- Improved website navigation & content governance, 40% moving entrances discovery & 21% raising mobile engagement.
- Produced flagship events (International Day, Languages Festival, Graduation), aligning staff and vendors under deadlines.

Marketing Specialist at European Azerbaijan School

06/2019 - 10/2019

- Managed school website and social content, producing bilingual brochures and press releases to boost program visibility.
- Coordinated Open Days, graduations and inductions, directed photo shoots and videos to support admissions outreach.

Marketing Assistant at Azerbaijan Supermarket LLC

09/2016 - 11/2018

- Produced marketing performance reports with media monitoring insights, guiding campaign refinements and decisions.
- Built trend-responsive social content using engagement analysis, keeping brand messaging current across channels.

- Stakeholder and partner coordination
- Process improvement & Workflow updates
- Presentation and executive reporting

Projects:

Behavior-driven campaign engine (Fintech, confidential) | Customer insight + CX strategy | 2025

- Built scoring, segments, triggers and fatigue caps from transactions + CX signals; lifted conversion 26% in 8 weeks.
- Cut irrelevant-offer complaints 18% & improved campaign-linked CSAT 6.4pp via dashboards and feedback-loop metrics.

Salary churn reduction via personalized cashback packs (Fintech, confidential) | Retention analytics | 2025

- Defined “functional churn” using 48h outflow logic; reduced churn 12%-16% over 3 months.
- Improved on-us transactions 18%-24% and raised wallet share 7%-11% with rule-based propensity targeting.

Ganja Mall website redesign and CX optimization | Digital journey + measurement | 2024-2025

- Improved NPS from +12 to +31 and cut time-to-find from 47s to 18s via mobile-first IA and search-led navigation.
- Reduced events bounce 54% to 36% and grew English-version usage 230% after validation with 1,420 responses.

“Leyli AI” mall guide adoption program | Behavioral research + activation | 2024-2025

- Diagnosed voice-use friction (privacy + social discomfort); redesigned entry cues and microcopy to reduce drop-off.
- Grew daily interactions from 2-3 to 300-400+ using UX changes plus TikTok social-proof activation.

TISA admissions journey transformation | UX research + IA redesign | 2019-2024

- Rebuilt admissions as the primary journey; reduced repetitive inquiries 70% and increased mobile engagement 21%.
- Improved application completion to 95% and shortened discovery time 40% with guided steps and testing loops.

E-commerce checkout conversion study (Global FMCG on marketplace, confidential) | Funnel diagnosis

- Identified friction before payment using step-drop %, time-to-checkout, & payment click rate; prioritized fixes for mobile.
- Proposed low-effort UX changes (CTA placement, fewer steps, earlier variant choice) aligned to marketplace constraints.

CosmoPAY (mobile banking app) | UX/CX design | 08/2023 - 01/2024

- Led end-to-end UX/CX: interviews, usability tests, competitor benchmarks; translated insights into clear UX priorities.
- Delivered wireframes, prototypes, UI and IA/user flows; iterated on feedback to balance usability with business goals.

Education policy and student experience study | Research contributor | 04/2018 - 05/2022

- Ran interviews and surveys with students; synthesized behavioral drivers impacting engagement and performance.
- Produced lesson books and supporting brochures with accessible information design for diverse audiences.

Mixed Ability Grouping and Its Effects on Teaching and Learning (ADA University MAEM) | Co-author | 06/2020

- Conducted online focus groups with teachers & students from 3 public schools: synthesized barriers & coping strategies.
- Delivered a policy proposal recommending ability-grouping pilots to improve learning outcomes.

Soft Skills:

- **Analytical thinking:**
Used mixed-method CX research to isolate friction points and lift customer satisfaction 15%.
- **Stakeholder alignment:**
Coordinated tenants, agencies and teams to expand media coverage by 20% and raise engagement by 15%.
- **Clear communication:**
Delivered dashboards and executive-ready reports to speed decision-making and prioritization.
- **Cross-functional collaboration:**
Partnered with IT and Admissions to improve database workflows and streamline outreach operations.
- **Project ownership:**
Planned and delivered multi-workstream initiatives spanning research, content, events, and digital improvements.
- **Strategic problem framing:**
Replaced “increase awareness” assumptions with observation-led diagnosis for an AI mall guide.
- **Operational discipline:**
Maintained accurate contact lists and ran emergency communications with minimal error tolerance.
- **Adaptability:**
Transitioned across banking, retail and education while maintaining measurable outcomes and delivery quality.
- **Creative judgment:**
Produced cohesive multi-channel content (print, digital, video) to strengthen brand consistency and visibility.
- **Time management under pressure:**
Executed flagship events with fixed deadlines, coordinating vendors, staff and comms end-to-end
